SAFETY

Stepline ANTI-SLIP STEP INSERTS

PERMANENT, INTEGRATED STEP INSERTS TO CREATE HIGH GRIP, EASY CLEAN TREAD ZONES IN STAIRS AND STEPS, RAMPS AND FLOOR SURFACES.

With a long established track record, the Stepline range of anti slip inserts meets the needs of architects, contractors and end users, in providing a slip resistant finish in steps, ramps, and floor areas.

With ever increasing requirements for built-in safety on steps and ramps, Stepline is the definitive solution. Stepline is a unique rubber composite material that is anti slip, easy to clean, and extremely hard wearing. The inserts provide an effective solution, backed by excellent value for money and rapid availability.

Stepline inserts can be produced in any width from 12 - 295mm, and are available in 6mm or 8mm thick options. A choice of colours and styles ensures that Stepline inserts are an extremely versatile, practical option for almost any stair types, whether internal or external.

- Unobtrusive fitting - no trip hazard
- High friction with easy-clean grit free surface
- Neat contemporary style - the first choice of architects and interior designers
- Ultra durable and extremely cost-effective
- Choice of styles, colours and sizes to suit almost every application
- For internal or external use

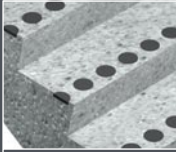

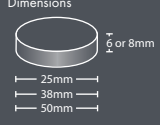

Description

Permanent, integrated step inserts to create high grip, easy-clean tread zones in stairs, ramps & floor surfaces.

Composition

Unique rubber composition materials with high friction and hard wearing properties.

	Square Ref. LL		Dovetail Ref. SS
Dimensions  Stock lengths: 1.7m, 2.7m. Cut lengths on request.	Colours Black Light Grey White Yellow Brown	Dimensions  Stock lengths: 1.7m, 2.7m. Cut lengths on request.	Colours Black Light Grey White Yellow Brown
	Edge Ref. BB		Discs Ref. DC
Dimensions  Stock lengths: 1.7m, 2.7m. Cut lengths on request.	Colours Black Light Grey White Yellow Brown	Dimensions  Stock lengths: 1.7m, 2.7m. Cut lengths on request.	Colours Black Light Grey White Yellow Brown

Substrates

Stepline can be used in conjunction with a wide range of materials including terrazzo, concrete, marble, stone and wood. Can be used internally or externally.

Application

Stepline is either set into steps at time of casting, bonded with adhesive into pre-cut channels or screws to substrate. Can be supplied pre-drilled.

Maintenance

Clean with water and mild detergent. Do not use polish as this will adversely affect the slip resistant properties.

Sample

Specification

The anti slip inserts to be Artech Stepline, type, width....., thickness....., colour....., as manufactured by Artech Systems, tel 0845 241 2630, fax 0845 241 2650. To be fitted in accordance with the manufacturer's instructions.

Stainless Steel

To complement the Stepline range of products, Artech Systems also provide a range of inserts in metal - stainless steel, aluminium and solid brass.

The Stepline metal range of inserts is the ideal solution for contemporary, minimalistic interiors, while still providing slip resistance for underfoot safety and performance.

This range is produced in a range of sizes / thicknesses and can be pre-cut to customers specific requirements.

Stepline is one of Artech Systems line up of products for the flooring and construction industry. Artech Systems manufactures and supplies trims and products that are innovative, reliable and cost effective.

- excellence in service
- quality of product
- proven experience
