

## ARTECH SYSTEMS

### Stepline Modena Specification

Stepline Modena is an anti slip stair insert in brass or stainless steel that is used to provide a hardwearing slip resistant surface in floor/step areas and is suitable for internal or external applications. It can be laid with the flooring material – usually ceramic or stone, or fitted retrospectively in a prepared groove in wood, stone or other surfaces (please check with our technical dept). Note –it is important to install it slightly proud of the surrounding surface (as specified) to be effective in reducing slip potential as the material itself is not inherently anti slip.

### Recommended Adhesives

Internal & External - Grip240 Cartridge Applied Adhesive

### Recommended Substrates

Concrete, stone, marble, terrazzo, ceramic, wood, steel

### Size – Stock Lengths (mm)

Cut lengths are available to specification.

Brass:

9.5mm(D) x 3.2mm(W)

Stainless steel:

5mm(D) x 5mm(W)

10mm(D) x 3mm (W)

10mm(D) x 4mm (W)

10mm(D) x 5mm (W)

15mm(D) x 3mm (W)

25mm(D) x 5mm (W)

### Colours

Brass, stainless steel

### Codes

STB - Brass

ST - Stainless steel
