

THE STEPLINE MODENA RANGE

STEPLINE Modena is a decorative safety tread for interior and exterior staircase that incorporate style with safety.

Available in stainless steel and solid brass.

DIMENSIONS:

SOLID BRASS

3.2mm(w) x 9.5mm(d)

5mm(w) x 5mm(d)

Other sizes available on request

STAINLESS STEEL

3mm(w) x 10mm(d)

5mm(w) x 5mm(d)

Other sizes available on request

We can manufacture to your specific length to avoid wastage.

STEPLINE MODENA SUBSTRATES

STEPLINE Modena anti-slip inserts are suitable for setting in:

CONCRETE
STONE
MARBLE
TERRAZZO
CERAMIC
WOOD

STEPLINE Modena can be installed into preformed channels or the substrate can be routed out to create the channel for the insert to be installed.

The design is unobtrusive and aesthetically pleasing as no aluminium stair nosings are required. Note, to create a slip resistant stair finish it is important to ensure that the height of the insert stands proud of the stair surface by minimum 1.5mm.

See installation instructions for more details.

STEPLINE MODENA SOLID BRASS

Can also be used as a decorative feature on banisters.
